Dear Hiring Manager,

I am thrilled to apply for the Data Scientist position at NORDEN, as advertised on Jobindex. Having recently explored your company's commitment to leveraging data for strategic advantage, I am deeply inspired by the opportunity to contribute to your innovative approach to global shipping while furthering my own professional growth.

With my passion for data-driven decision-making and my commitment to driving positive change through data, I am confident that I can bring valuable experience and insights to the team.

During my three-month internship in the Data Science/BI team at Collectia, I gained valuable experience working with complex data, databases, SQL and Python
At Collectia, I honed my skills in data extraction using SQL, building a strong foundation for navigating complex datasets and extracting meaningful insights. Additionally, my experience with Python and its Pandas library equipped me to handle data from diverse sources efficiently and accurately. I am confident that these skills, combined with my passion for data-driven decision-making, will enable me to make valuable contributions to the Operations Analytics team at NORDEN.

Furthermore, the opportunity to collaborate closely with internal stakeholders excites me, as it allows me to leverage my communication and collaboration skills to ensure alignment between data insights and business objectives.

In summary, I bring practical experience in data science, along with a strong foundation in SQL, Python, and data manipulation techniques. I am a dedicated and motivated individual who thrives in informal and social environments, and I am excited about the opportunity to contribute to NORDEN's success while continuing to grow both personally and professionally.

Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences align with the needs of the Operations Analytics team at NORDEN.

Sincerely,
Cem Akay Türker
